WHY HIRE A CAT SITTER?

Your cat is a territorial creature, very attached to the comforts of its own home. Cats are not happy being removed from their familiar environment. Although there are boarding facilities for cat care, your cat will spend most of its stay in a cage. Some cats experience stress in this situation. Also, since your cat will be kept in close quarters with other animals it is susceptible to germs in the environment that can spread easily. Having a professional cat sitter come to your home and spend quality time with your cat in his own environment, aside from just feeding and cleaning the litter, is a much better option. Another advantage of hiring a cat sitter to come to your home rather than boarding is that you don't have to transport your cat to and from a boarding facility, which can cause a lot of stress to the cat and to you!

Your cat definitely prefers your company, but since you may have to spend time away from him/her, the ideal situation is to have someone who is experienced, responsible, reliable and loving come over and take care of your cat in his own home. When that person is a lifelong cat lover it's even better!

A cat sitter also helps make your home more secure while you're away by making it look lived in, e.g. turning lights on and off, opening and closing shades and windows, and taking in mail and newspapers.

HOW KAREN KARES 4 YOUR KATS!

IN HOME CONSULTATION

I'll meet you and your cat in your home to consult with you. We will go over all of your cat's needs, daily routines, and medical history, and I will pick up a set of your keys. I take notes, and will always have them for future reference. In-home consultations are very enjoyable, as I get to meet fascinating new cat lovers and their cats!

To schedule an in-home consultation or for more information please call me at: (718) 896-6658 or send an e-mail to: katewoman521@gmail.com

SERVICES

I will feed your cat(s), following any special diets they may have, administer necessary medications, clean the litter box, recycle cans, take out garbage and keep your home as clean as I found it. My routine visits also include playtime and lots of affection - at your cat's request! I'll give your cat(s) as much time as I can, sometimes up to an hour, my schedule permitting and if your cat enjoys the visiting time. Some cats are shy and I respect that, too! During Holidays when my schedule is busier, I will still be with your cat for at least 30 minutes during each visit.

If you have other little pets such as birds, fish, gerbils, hamsters or rabbits, I will happily take care of them as well. I'll also water your plants, if you have any.

If your cat seems to be sick, or anything seems to be wrong, I will notify you immediately and will take your cat to your vet if you think it's necessary. In case you are not reachable, I will use my own good judgment and make the decision.

And if you'd like, I will be happy to call or e-mail you while you are away with reports of how your cat is doing. I want to make your vacation, business trip, etc. as easy as possible knowing that you don't have to worry about your cat(s) while you are away. **ATTENTION: NO ROBBERS!** Mixed with Karen as your cat sitter!

If you have to cancel your trip, you must notify me before I am scheduled to visit your cat. If you forget to cancel, and I arrive for a visit, you will owe me payment for that visit.

MEET KAREN

I'm Karen and I'm a devoted cat lover all of my life, and currently living with four cats of my own. I've been a professional cat sitter since 1996 and have enjoyed getting to know many of the sweet and charming cats of Queens who have become a part of my extended family. I am veterinarian approved and bonded. I hate having to turn a cat lover down, and am very proud that I haven't had to do that many times in my cat-sitting career. To help me accomplish that it's good to book early, especially for holidays that usually get very heavily booked!

References are available upon request.

Referred by Forest Hills Cat Hospital
